Re: Notification of Work in the Right-of-Way and of a Meeting to Discuss the Proposed Request for Modified On-Site Construction Hours for Fleet ES Construction

Dear neighbor,

Previous notifications were sent regarding installation of a new 8" water main in South Old Glebe Road. That work is now complete. This notification is to inform you that the 2nd stage of the waterline work, which is to tap existing neighbor services into the new water line, is scheduled to take place over the next 2 weeks. Neighbors who will be impacted by this work and subject to an outage of water service will be contacted directly by Arlington County Department of Environmental Services (DES) to inform of outage date, time, and anticipated outage duration. If you are not contacted by DES, you will not experience any interruption in service as a result of this work.

A previous notification was also sent to inform you that Arlington Public Schools has submitted a Use Permit Amendment request to the Arlington County Zoning Office to modify construction work hours for the project. Due to local Civic Association request, a meeting to clarify the proposed request and to answer any questions surrounding the request has been scheduled for Tuesday, June 5, 2018, from 7pm – 9pm in the Thomas Jefferson Middle School (TJMS) library. The library is accessed through the temporary TJMS main entry, which is located on east side of TJMS, adjacent to the TJ Community Center soccer fields. This meeting is being held in advance of the County Board hearing to consider the Use Permit Amendment request, currently scheduled for the June 16, 2018 County Board meeting.

Please contact me should you have any questions in this regard.

Sincerely,

Steve Stricker
